

CleanAIR® Link

Smart control of your powered air respirator

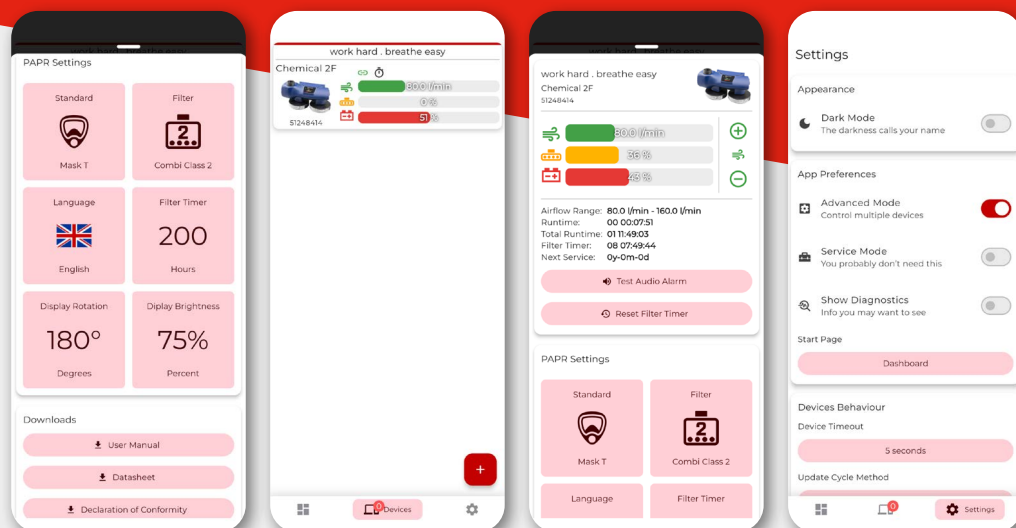

Bluetooth
ready

CleanAIR®
work hard • breathe easy

Experience a new way to control your protection

Take full control of your **CleanAIR® Chemical 2F** unit – anytime, anywhere. The new **CleanAIR® Link App** brings Bluetooth® connectivity, modern design, and smart features that make operating your powered air respirator easier, faster, and more intuitive than ever before.

Key Features

- **Modern three-page interface:** Dashboard / Devices / Settings
- **Light & Dark mode** for optimal visibility in every condition
- **Favourite device pinning** – keep your main unit always at hand
- **Interactive Dashboard** with integrated CleanAIR® YouTube videos
- **News section** with the latest product updates and safety info
- **Multi-device connectivity** – monitor several units simultaneously
- **Manual device management** – enable or disable paired devices easily

Modern design – trusted reliability

Built on a brand-new platform with optimized performance and communication stability, the **CleanAIR® Link App** ensures seamless pairing between your **smartphone** and **CleanAIR® Chemical 2F unit**.

Enjoy effortless setup, a clear status overview, and intuitive control – designed with the same reliability you expect from CleanAIR®.
